PRODUCT INSTRUCTIONS

1. Fit the narrow end of the container into any 2-in. no-hub coupling or venting pipe opening where odor is a concern.
Coupling sizes needed:
 - ▶ 1"-2" for 1" vent
 - ▶ 2"-2" for 2" vent
 - ▶ 3"-2" for 3" vent
 - ▶ 4"-2" for 4" vent
2. Replace carbon pellets every 3 months for best results. Filter comes with pellets inside and one 9-oz. packet of replacement pellets. Pellets are also sold separately in packages of 3 packets (SKU# CF-REFILL-3).
3. To replace pellets, remove vented lid and fill container with one packet of replacement pellets. Replace lid. It will snap on.

NOTE: Drawing for reference only. Equipment must be installed in compliance with all applicable laws regulations & codes, including plumbing codes. Installation should be performed by a qualified plumber.
